

Pradhumn Vyas

Linkedin: <https://www.linkedin.com/in/pradhumn-vaso7/>
Github: <https://github.com/Pradhumn2004>

Email: pradhumnvyas07@gmail.com
Phone : +91-7023738130

SKILLS

Languages:	C++, Python, Java, SQL, JavaScript
Frameworks:	FastAPI, Flask, Node.js, React, Next.js, Scikit-Learn, TensorFlow, PyTorch, OpenCV, Rest API
Tools/Platforms:	Docker, Jenkins, GitHub Actions, Google Colab, VS Code, AWS, Git, n8n
Databases:	MongoDB, SQL, Postgresql

EXPERIENCE

Software Developer Intern – Bluestocks (Remote)

Aug 2025 - Present

- Developed a secure and scalable web application for companies to register, log in, and manage profiles
- Implemented a new responsive website approach increasing mobile traffic by **22%**
- Built and deployed an AI agent project, improving automation and intelligent task handling
- Managed database operations including design, storage, and retrieval of corporate data
- Contributed to UI/UX improvements, enhancing site usability and performance
- Collaborated with cross-functional teams to deliver production-ready features
- Gained practical experience with AI agent development, ML workflows, and applied machine learning concepts

PROJECTS

Personalized Health and Wellness Assistant – (Full-Stack +AI/ML)

Aug 2025 - Sept 2025

- Developed FastAPI backend and React/Next.js frontend for a personalized wellness platform
- Implemented deep learning models for activity recognition and personalized wellness recommendations
- Automated deployment with Docker and GitHub Actions ensuring scalability and reliability
- Integrated REST APIs and nutrition databases for tailored diet and exercise recommendations

Technologies Used: Python, FastAPI, React/Next.js, TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, Docker, GitHub Actions, REST APIs
Github link : <https://github.com/Pradhumn2004/MuscleTa>

Real-Time Hand Gesture Recognition for Alphabet Translation

July 2025 - Aug 2025

- Developed a system to recognize hand signs and translate them into English alphabets in real time
- Built deep learning models for gesture recognition and image classification
- Implemented live video capture and hand landmark tracking using MediaPipe
- Achieved **>90%** recognition accuracy, ensuring reliable real-time translation

Technologies Used: Python, OpenCV, TensorFlow/Keras, MediaPipe, NumPy
Github link : <https://github.com/Pradhumn2004/hand-sign-to-text-converter>

Social Media Post Automation Tool- Agentic AI

April 2025 - May 2025

- Developed an AI-driven automation tool to generate and schedule social media posts across platforms
- Fetches trending news via Google RSS and generated posts using Gemini API
- Improved deployment efficiency by **35%** with reproducible builds
- Scheduled and published posts automatically based on user-defined timing
- Built Next.js frontend and integrated scheduler for seamless content management

Technologies Used: Next.js, Gemini API, Python, Scheduler libraries (e.g., APScheduler or Celery), REST APIs
Github link : <https://github.com/Pradhumn2004/drone-daily>

CERTIFICATIONS

Full Stack Software Development - Meta	August 2025 - Present
Machine Learning Specialization – Coursera	December 2024 – January 2025
IBM DevOps and Software Engineering – Coursera	September 2024 – November 2024
Cloud Computing – NPTEL	September 2024 – November 2024
Generative AI – Coursera	January 2024 – May 2024

ACHIEVEMENTS

- Hackathon Finalist– (Top 10)** April 26,2025
Participated in a university-organized hackathon and secured a top 10 position out of several competitive teams.
- Competitive Coding / DSA**
Solved 500+ problems across LeetCode, Codeforces, and GFG

EDUCATION

Bachelor of Technology – Computer Science and Engineering. Lovely Professional University	Punjab, India (Aug 2022- Present)
Senior Secondary (Class 12) – Science Stream Mount Litera Zee School	Bhilwara, Raj (April 2020- March 2021)
Secondary (Class 10) Green Valley Public School	Bhilwara, Raj (April 2018 – March 2019)
